Who keeps the bound on measured speeds: edges kept (bold) and certification result per method and t

METR-LA

	t = 1.1	t = 1.3	t = 1.5	t = 2	t = 3
delay-bounded greedy	**54.5%** certified	**39.5%** certified	**33.5%** certified	**28.1%** certified	**25.0%** certified
union of per-hour greedy	**55.9%** certified	**41.6%** certified	**36.5%** certified	**30.8%** certified	**28.8%** certified
mean-temporal weights	**35.0%** 446 edges violate	**29.1%** 269 edges violate	**27.3%** 164 edges violate	**24.4%** 81 edges violate	**21.6%** 74 edges violate
static free-flow weights	**31.2%** 533 edges violate	**28.4%** 291 edges violate	**27.0%** 170 edges violate	**24.3%** 96 edges violate	**21.8%** 79 edges violate

PEMS-BAY

	t = 1.1	t = 1.3	t = 1.5	t = 2	t = 3
delay-bounded greedy	**34.7%** certified	**25.7%** certified	**22.7%** certified	**21.9%** certified	**21.7%** certified
union of per-hour greedy	**36.5%** certified	**28.1%** certified	**25.7%** certified	**25.0%** certified	**24.7%** certified
mean-temporal weights	**22.3%** 813 edges violate	**21.5%** 282 edges violate	**21.4%** 74 edges violate	**21.3%** certified	**21.1%** 1 edge violates
static free-flow weights	**21.8%** 922 edges violate	**21.5%** 343 edges violate	**21.5%** 97 edges violate	**21.4%** 7 edges violate	**21.2%** 1 edge violates
